

Bowser, on Tour of North, Takes Government to Task

Hon. W. J. Bowser, leader of the Conservative party in British Columbia, accompanied by R. H. Pooley, M.L.A., have made what might be easily styled a successful tour of through Northern British Columbia. Beginning at Prince Rupert, a meeting was held in the Empress theater; next day they assisted in the opening of the eleventh fair at Prince Rupert and the next day Hon. Mr. Bowser crowned the Queen of the Carnival.

On Thursday of last week the visitors held an excellent meeting in Assembly Hall in Hazelton, where the district was well represented. On Saturday last they were at Houston for the fair and then went on to Burns Lake, Francois Lake and Wistaria. They had their guns and dog with them and hoped to get some birds en route.

This week they doubled back to Smithers, where a public meeting was held on Wednesday night and on Thursday Hon. Mr. Bowser formally opened the Smithers fair.

The leader of the opposition stated that the object of his tour was to get acquainted with the people in the north and to learn their requirements and the possibilities of this new country. During his trip he met a good many settlers and today has a much greater knowledge of the coming agricultural, timber, mining and industrial part of the province. It is true he met a number who complained about the present government, and he found much which could easily be rectified and should be rectified. He hopes to be premier of the province as soon as the electors get an opportunity to mark their ballots, and in that case he will be in a position to revolutionize the administration of British Columbia's affairs.

Throughout the north he preached the same gospel and read the same text, and there is no doubt that he made an impression.

At the various meetings R. H. Pooley was the first speaker. He touched upon the financial question and the administration of the liquor act, which, he claimed, is not being administered. In connection with the financial end he referred to the Liberal cry in 1916 that the Conservative ministers were all grafters and getting in office. As a matter of fact every minister of the McCrede cabinet, including the premier, with the exception of Mr. Bowser, who made some money in Vancouver real estate, has broken or is now working on a small salary. This he did not think looked like graft. In connection with the liquor question,

he gave instances of where very large commissions were being paid to friends of the government on whiskey purchases, and these men have never been in the whiskey business before.

Hon. W. J. Bowser stated that when he became leader of the opposition he undertook to visit all parts of the province and to get intimately acquainted with the people and their needs. He had thus been greatly assisted in his work and had a much broader vision than when he was confined to departmental work at Victoria.

The speaker strongly favored increasing agricultural production to supply the demands of the local markets. These markets are developing very fast, and last year the province paid out seventeen million dollars for foodstuffs alone. He did not believe in tax sales; rather, he favored a policy of keeping the settlers on the land, even though they did not get all their taxes paid every year. A family on the land was worth infinitely more to the province than the few dollars the government would get by selling those settlers out. At the present time the Oliver government says, "If you don't pay your taxes by June 1st we will add one per cent per month until October 12th and then sell you out if you have not paid up." The chief object of the government today is collecting money, either by taxes, or by floating loans in New York.

In 1916 the net revenue of the province was less than seven millions, but this year the estimates call for the collection of nineteen millions of dollars from the seven hundred thousand people of the province. Of this amount the government had voted \$330,000 for travelling expenses for civil servants alone, or about \$1000 per day. In 1916 the overhead expense was less than a million dollars per year, but today it was nearly three millions. Every department was overmanned, except, perhaps, the department of mines, and if he was returned to power one of the first things he would do would be to reduce the civil service and increase the efficiency of the administration.

In 1916 the net debt was nineteen millions, but today the net debt has jumped to sixty-six million, or nearly seven million a year for the seven years that the Liberals have been in power.

Since coming into power the Liberal government has collected in taxes and spent \$86,823,000 and borrowed and spent another \$50,000,000, or a total of \$136,823,000 in seven years. How long can that go on? he asked.

A great deal has been said about the great appropriations that Hon. A. M. Manson gets for

Unprecedented Total of Entries Smithers Fair

The Smithers Fair got away to a good start on Wednesday in spite of the threats of the weather man. In every department, with possibly the exception of fancy work, there is a big increase in the number of entries. The hall, which the directors thought would be large enough for years, was overcrowded and additional room had to be provided. The secretary reported 1500 entries, a very substantial increase over any other year. The two vegetables leading for competition were white potatoes and table carrots, with 34 entries each, while 25 entries in a section was quite a common thing. Home-cooking and canned goods were most creditable and the judges had much work to do. So far as the hall exhibition was concerned, probably the most attractive display was the cut flowers. Most of these came from Hazelton and New Hazelton, and proved an eye-opener for the natives. Besides many entries for competition, a good many flowers were shown for display only.

Harry Smith, of Smithers, was the heaviest individual exhibitor, with 53 entries, and F. A. Goddard, of New Hazelton, was second, with 40, including a collection. Other exhibitors from the western end of the district were Mrs. Sealy, Mrs. T. G. Johnson, Mrs. Newick, Mrs. R. S. Sargent, Mrs. Galloway, and the Indian School Children, Hazelton; Mrs. Sawle, Olga Bergman, and Frances Willan, New Hazelton.

Pete Greulich, of Smithers, took the cake with a forty-pound cabbage (all home grown). There were six collections of canned vegetables and six collections of garden vegetables.

Leverett-Corliss

The Presbyterian manse at Burns Lake was the scene of an interesting ceremony on Tuesday, September 11, when Miss Gladys Corliss became the bride of William Leverett. Only those immediately concerned were present at the ceremony. Miss Lelia Clark was bridesmaid and A. Anderson supported the groom. Following the wedding, a dance and reception to the happy couple was held in the Omineca Hotel, where a host of friends from all over the district extended their best wishes to the bride and groom.

Omineca. The speaker offered a little comparison. In Delta, where Hon. John Oliver has his farm, the riding is composed of all municipalities. Municipalities are not supposed to have their roads and bridges built by the government. In that riding there are thirty-nine miles of provincial roads. In Omineca, where there are no municipalities, there are over 800 miles of roads and

Quality Produce at Terrace Fair Suprised Judge

P. W. Ankatell-Jones, who judged the fruit at the Terrace Fair, expressed himself as very greatly surprised at the extraordinarily high quality of the produce shown.

"It is my first visit to the valley," he said to the editor, "and between McBride and Prince Rupert I have seen more quality in vegetables and a far finer display of potatoes than I have ever seen in any show in New Westminster. The potatoes were absolutely free from disease, with the exception of seven only—a very low percentage. Two bushel lots of Netted Gem and Gold Coin are fit to win in any exhibition in British Columbia.

"When you turn to the fruit it is away above my expectations both in coloring and quality but several of the apples need to have their names corrected. If the growers here will take the trouble to put up the produce right they can beat anything in the Okanagan or anywhere else."

There was keen competition in several branches at the fair. F. W. Bohler took away nearly all the honors for grain and W. West did the same for stock. Mrs. Gilbert won out with cut flowers, beating such redoubtable competitors as Mrs. Munro and Mesdames Lanfear and French.

The show was very fine in most respects, and a credit to the organizers, but it might have been some bigger.

The Presbyterian ladies served tea during the afternoon and there was a movie show and dance at night.

OVERHEARD AROUND NEW HAZELTON

There was a large congregation present to hear Rev. T. D. Proctor last Sunday evening at the home of Mr. and Mrs. F. A. Goddard. Miss Goddard sang "I heard the Voice of Jesus Say." This was the first service Mr. Proctor had held in New Hazelton and he was so encouraged that he hoped to arrange to preach here more often in future.

The New Hazelton Ladies' Aid Society has decided to hold their Annual Sale of Work and Social in the Church at New Hazelton on Nov. 23 (Friday). They will have a full line of men's socks, mitts and other useful things for ladies and children. — Keep the date open.

Mr. and Mrs. F. A. Goddard were visitors to Smithers for the fair this week.

Richard Morrison left Thursday morning for Montreal.

Made Extensive Examination of Peace Country

Last week J. D. Galloway, district mining engineer, returned from the Peace River country, where he spent several weeks examining the coal, iron and placer gold deposits for the Department of Mines.

He made the trip largely by water from Prince George on, and found a splendid farming country, where great grain crops have been harvested and where farmers haul their produce as far as 60 miles to the railway.

The coal deposit which Mr. Galloway examined is at Rocky Mountain Canyon in the Peace River country. The deposit is known to extend over an area 40 miles by 60 miles with a great many seams, mostly small, but with quite a number of commercial importance. The coal is a semi-anthracite, similar to that in the Groundhog. It has the advantage of most other western coals of being very low in ash. He believed it would compete successfully with the anthracite coal from Pennsylvania even in the Ontario markets. One shipment of 40 tons was made by scow to Peace River Crossing, where it was turned over to the C.P.R. to test out on a large scale, and it is reported, with excellent results.

In regard to the placer mining Mr. Galloway found two companies operating with dredges, but thus far they had not met with material success. A different sort of a machine to those in use must be found. A good many individuals are working by hand and are doing fairly well. The Peace River sands carry much fine gold and a considerable value in platinum. It is, however, low grade ground and eventually the dredge will predominate.

All through that country Mr. Galloway found much opposition to the government reserve on the coal and oil lands. The people want to know the idea of the reserve.

Takes Last Long Trail

Another of the fast-dwindling band of original old-timers in the Hazelton district passed away early on Wednesday morning in the person of Thomas Forrest. Deceased was about 85 years of age and had spent the past thirty years or so in the district. As far as can be gathered he leaves no known relatives. The funeral took place on Thursday morning from the Anglican church, the service being conducted by Rev. T. D. Proctor. The pall-bearers were R. H. Cusack, A. E. Falconer, Herbert Hankin and Ben. Peterson.

Prophets

In the palace in Amsterdam, formerly the town hall, a guide pointed out the room that once had been the Debtors' Court.

"The first debtor whose troubles were aired in that room," said he, "was the painter, Rembrandt."

Whether that is an accurate historical statement or not, there is no doubt about what happened to poor Rembrandt.

His fine home went under the hammer; the beautiful collection of his own paintings and other works of art was scattered, bringing only about two thousand dollars. Stripped of everything, even his table linen, the greatest genius Holland has produced found refuge in a shabby tenement in the ghetto.

Today the finest square in Amsterdam is called by his name, and his statue stands in the center of it.

The biographies of the world's benefactors are only too often very painful reading. Howe, the inventor of the sewing machine, attended his wife's funeral in borrowed clothes.

He had lightened the labor of millions of women, but the world would not give him even a decent suit, in which to mourn for the woman he loved.

We boast of the Yankee genius Fulton, but no words sounded in his ears more often than the derisive phrase "Fulton's Folly."

Truly and scornfully it was said long ago:

"Ye build the tombs of the prophets and garnish the sepulchers of the righteous, and ye are the children of them which killed the prophets."

We are all descendants of those who failed to recognize the great spirits of their generation. All too tardily we seek to make good their neglect by erecting statues and establishing holidays.

Meanwhile there comes to my office a boy who wants a job; or a girl with a gift for music, and no funds, goes to work in a department store; or a lad who needs just a little help crosses the path—and we are busy with other things.

They may not be geniuses. The chances are one in several million against it. But there is fun in laying a little bet on Youth, even at such long odds.

And suppose one should win. Suppose that in the future it should be written: "There was a prophet in America in those days, and a man named Jones" (that's you or I), "about whom nothing else is known, encouraged him and set him courageously on his way."

Geological Survey

The summary report of the geological survey for 1922, part A, has just been published. It contains the results of field work carried on in British Columbia and Yukon territory. It presents reports on southern Yukon; the coast and islands of British Columbia between Douglas channel and the Alaska boundary, an area between Kitsault river and Skeena river, the Alberni area, the Yale and Similkameen mining divisions, placers of the Cedar Creek area, and the bedrock geology and quartz veins of the Barkerville area. Copies of the report may be had by applying to the director, Geological Survey, Ottawa, or 510 Pacific Building, Vancouver.

Northern B.C.'s exhibit at New Westminster fair got last place with much less than half the points received by the winning district. The judges evidently had a different view to that held by some of those who helped get the Northern exhibit together.

TELKWA TALES

News from the Hub of Bulkley Valley

The redoubtable Telkwa football team met its Waterloo at Prince Rupert last week, being defeated by Ocean Falls, 4-1, and by Prince Rupert, 7-1. The defeats, however, seem not so tremendous when the true facts are known. The Telkwa team was severely weakened by the absence of Noonan as goalie and D. McDonald as center-half. Chettleburgh still being convalescent from a recent illness, was unable to play. The changes necessitated left weak spots and the opposing teams played to these. Then again, the field was one of those hill and dale affairs, and only those fully acquainted with its characteristics could play upon it to advantage. However, even in defeat the Telkwa boys were victorious inasmuch as again and again they drew the applause of the spectators for their gameness and the way they forced the play. The opposing teams were quite thankful when the whistle sounded for full time.

The spirit of the times was manifested on Tuesday, when the Ladies' Aid of the Union Church and the Women's Auxiliary of the Anglican Church held a joint meeting to discuss ways and means for holding a real old Harvest Home Supper and 'Thanksgiving service. The service will be held in the Anglican Church and will be followed by the supper in the Union Church and the evening will be concluded by a community social.

The local troop of Boy Scouts will begin its fall work this week. Scoutmaster P. Spouse has prepared an extensive program and it is to be expected that some splendid displays will be held this fall and winter. Gymnasium and indoor work will begin on Friday directly after school and

Dated at Copper River, B.C., this 10th day of September, 1923. 1123

will be held on Friday each week at the same time. Saturdays will be open for field work. All Scouts are requested to keep uniform in A1 condition and to wear them for field days.

The Rev. C. Mawhinney has returned from his periodical visit to his eastern territory, where he held services at Topley, Forestdale and Houston, at which latter place he attended the fair.

Mrs. Broadbent left the Nursing Home on Wednesday with her little daughter, and will stay for a while with her sister, Mrs. Cornwell.

Art White, of Woodmere, is relieving at Broughton & McNeil's while Messrs. McAra and Ovens do a little holidaying.

Mrs. P. Spouse has returned from a lengthy visit to the coast cities and Vancouver Island.

Elected Officers

At the annual meeting of the Terrace Parent-Teacher Association, held on Thursday evening, the following officers were elected for the year:

Hon. President—Mr. Griffin.
 President—Mrs. O. T. Sundal.
 1st Vice-President—Morse Hatt.
 2nd Vice-President—Mrs. G. Little.
 Secretary—Miss Fowler.
 Treasurer—Miss Dobb.
 Membership Convenor—F. C. Bishop.
 Entertainment Convenor—Mrs. H. S. Creelman.
 Refreshment Convenor—Mrs. W. H. Burnett.

Got a New Vein

Some of the best ore that was ever brought from Nine-mile mountain was discovered last week by Thos. Railson on the old Lead King property. This is a new vein which Railson reports having traced for 800 feet. The ore is from one to two feet wide and is clean, high-grade stuff.

Synopsis of Land Act Amendments

Minimum price of first-class land reduced to \$5 an acre; second-class to \$2.50 an acre.

Pre-emption now confined to surveyed lands only.

Records will be granted covering only land suitable for agricultural purposes and which is non-timber land.

Partnership pre-emptions abolished, but parties of not more than four may arrange for adjacent pre-emptions with joint residence, but each making necessary improvements on respective claims.

Pre-emptors must occupy claims for five years and make improvements to value of \$10 per acre, including clearing and cultivation of at least 5 acres before receiving Crown Grant.

Where pre-emptor in occupation not less than 3 years, and has made proportionate improvements, he may, because of ill-health, or other cause, be granted intermediate certificate of improvement and transfer his claim.

Records without permanent residence may be issued, provided applicant makes improvements to extent of \$300 per annum and records same each year. Failure to make improvements or record same will operate as forfeiture. Title cannot be obtained in less than 5 years, and improvements of \$10 per acre, including 5 acres cleared and cultivated, and residence of at least 2 years are required.

Pre-emptor holding Crown grant may record another pre-emption, if he requires land in conjunction with his farm, without actual occupation, provided statutory improvements made and residence maintained on Crown granted land.

Unsurveyed areas, not exceeding 20 acres, may be leased as homesteads, title to be obtained after fulfilling residential and improvement conditions, and surveying land.

For grazing and industrial purposes areas exceeding 640 acres may be leased by one person or company.

Mill, factory or industrial sites on timber land not exceeding 40 acres may be purchased; conditions include payment of stumpage.

Natural hay meadows inaccessibility by existing roads may be purchased conditional upon construction of a road to them. Rebate of one-half cost of road, not exceeding half of purchase price, is made.

PRE-EMPTORS' FREE GRANTS ACT.

The scope of this Act is enlarged to include all persons joining and serving with His Majesty's Forces. The time within which the heirs or devisees of a deceased pre-emptor may apply for title under this Act is extended from one year from the death of such person, as formerly, until one year after the conclusion of the present war. This privilege is also made retrospective.

No fees relating to pre-emption are due or payable by soldiers on pre-emptions recorded after June 26, 1918. Taxes are remitted for 5 years.

Provision for return of moneys accrued, due and been paid since August 1, 1914, on account of payments, fees or taxes on soldiers' pre-emptions.

Interest on agreements to purchase town or city lots held by members of Allied Forces, or dependents, acquired direct or indirect, remitted from installment to March 31, 1920.

SUB-PURCHASERS OF CROWN LANDS.

Provision made for issuance of Crown grants to sub-purchasers of Crown Lands, acquiring rights from purchasers who failed to complete purchase, involving forfeiture, or fulfillment of conditions of purchase interest and taxes. Where sub-purchasers do not claim whole or original parcel, purchase price due and taxes may be distributed proportionately over whole area. Applications must be made by May 1, 1922.

GRAZING.

Grazing Act, 1919, for systematic development of livestock industry provides for grazing districts and range administration under Commission. Annual grazing permits issued based on numbers ranged; priority for established owners. Stock owners may form associations for range management. Free, or partially free, permits to settlers, campers or travellers, up to ten head.

Acreage blocks of the fruit and garden land in north can be had. Prices from \$28 to \$40 an acre with long term payments. See adv. on another page.

Who Is Our Oldest Friend?

It would be interesting to know who has been a user of Pacific Milk for the longest time. Certainly some of its friends have known it for many years. Please write the Recipe Dept. telling when and where, and if you like, why you first started using this British Columbia product. We will be glad to send a case of milk to our friend of the longest standing.

Skeena's Industrial Centre

John Willman, manager of the Kleanza Co., went to Rupert on Wednesday on business for the company.

Dunc McIntosh and J. D. Wells returned from Silver Basin Tuesday after a prolonged stay in the hills, completing a trail from the main Kleanza Creek trail at 16-mile to the Basin, where several pack-train loads were delivered at the camp established for developing the late silver ore finds made by Wells last season. A cabin was built and other facilities completed for continuous work during the open season. The main outlet of this basin is by Chiminess Creek, where a magnificent grade has been located by Wells and the Stewart Bros. The latter are using every effort to open a passage through this season on a sleigh road route for a distance of eight miles, from which an estimate may be made as to the amount required to turn it into a road for hauling the high grade silver ores that are being developed in the Silver Basin.

A new find of silver-bearing copper ore was made within the Silver Basin radius at the head of the north fork of Kleanza Creek, at a point where the Legate, Chiminess and Kleanza form their common source, by Thomas Sculley and associates, and six claims were located. Through further exploration they brought some very high grade chalcocite ore. The completion of the Kleanza Creek trail will facilitate the exploration of this district.

James Gall and party disbanded the government trail gang last Saturday, after completing the last link in the Kleanza trail. After many years of striving the prospectors have at last induced the officials to relieve a long felt want. The trail entailed some tremendous difficulties through rock and swamp, but there will now be no bugaboo, which shooed off the prospective purchasers, nor will the prospector have the usual kick or want of a trail. The result is going to encourage development of upper Kleanza copper-silver properties on the east end of the range, where there are located over 50 claims on very promising veins.

Tom Shackleton, of the Cordillera Hotel, through the pressure of business, had to extend the limits of his kitchen 25 feet, occupying the full length of the north wall of the hotel. This will enable him to use his commodious dining room direct from the kitchen.

The extended absence of J. Hamblet in the hills, between Copper River and the east end of the Kleanza range, where he went alone on a prospecting tour is causing concern. Intending to be back in three days, he has overstayed his plans by three weeks, and a relief party is being organized to hunt him up.

A dastardly deed was perpetrated on the premises of Dunc McIntosh by some pilfering culprit who broke in a padlocked door and stole blankets, food, tools, clothing and odds and ends of his possessions. Reverred mementoes and medals of the late world war were taken.

A big benefit dance is to be held on Saturday night at the Rethurem Hall.

"Frontiersman" Captain Covered War on Skeena

The Frontiersman, a British yacht making a trip for the purpose of establishing a route for a world aerial-flight, was held up at Los Angeles by the dry squad, some sixty-five gallons of Scotch were seized. The ship is in charge of Capt. Roger Pocock, an old-timer in Northern British Columbia. Referring to the Captain's previous experience on the Skeena the Vancouver Province says:

He is well known among pioneers of British Columbia, for he spent some exciting times in this province. Coming west about 1886, he was thrown from a horse and went into hospital at Kamloops. While recovering from his injuries trouble broke out with the Skeena River Indians, and he was commissioned by the Montreal Witness to act as "war correspondent." He reached the mouth of the river on an old vessel called the "Cariboo Fly" and found a British gunboat and a battery of artillery there. No "war" developed, and Pocock went on to Alaska.

On his return to the Skeena in the fall he was asked by the missionaries in charge at Metlakatla to go up the river and take over the mission post at Kitwanga, which was in the center of the disaffected district. He made the journey in a Hudson's Bay Co. freight canoe and remained at his post for nearly a year.

Bowser Takes Govt. To Task

Continued from page 1

trails. The Delta got \$343,000 from the government, and Omineca got \$96,000. So much for the wonderful appropriations to Omineca.

The Land Settlement Board and Soldier Settlement areas were held up as horrible examples of the wild expenditure of public money by the Oliver government. He instanced the Sumas drainage scheme, the Okanagan irrigation scheme and the several soldier settlement schemes, each of which cost several millions more than the estimates and were not yet finished. Nine or ten million dollars have been spent in the south to make land, while nothing has been done to settle the north, where the land needs no drainage, and no irrigation—just a little clearing. Yet Hon. A. M. Manson and Hon. T. D. Pattullo have been too busy in the south to get any settlement plan working for the north.

Hon. Mr. Bowser also dealt with the P.G.E. matter and that famous letter he wrote to the late Hon. H. C. Brewster, and closed with a plea to the Liberals and Independents of the riding to put a candidate in the field who would be of assistance to him in forming a capable government after the next election.

FRUIT AND GARDEN LAND

Five- and Ten-acre blocks of the best
land, adjoining the town, being the

W. Half of L. 863 or Section 1 of

NEW HAZELTON

The land has been given three classifications and the prices set accordingly

Grade 1 Land: \$35.00 per acre, cash;
\$40.00 per acre, \$10.00 per acre down,
balance spread over five years with
no interest for first eighteen months,
then 6% will be charged on balance.

Grade 2 Land: \$30.00 per acre, cash;
\$34.00 per acre, \$9.00 per acre down,
and same terms as above.

Grade 3 Land: \$25.00 per acre, cash;
\$28.00 per acre, \$7.00 per acre down,
and same terms as above.

**DON'T WAIT UNTIL THE BEST LAND
HAS BEEN TAKEN.** You are given an
opportunity now to get located on land that
will make money for you.

These blocks are not for speculators,
but, first, for married men who will

LUMBERING
MINING
HORTICULTURE

Most of the visitors to Prince Rupert fair had returned by the week-end. On Saturday night Mrs. McDonald, Gladys Kenney, Mrs. Soucie, Mrs. and Miss Halliwell returned.

Mrs. Sundal returned on Thursday night as did also W. R. Owings. "Happy" went up to Kalum Lake on Friday.

Dr. Bleecker has let it be known that he intends carrying on his medical practice from his private residence.

The work of blasting the rock from the bridge road has been completed and the road is now being graded and gravelled.

Mrs. George Jones left for Vancouver on Sunday and Miss Lillian King for Toronto on Thursday, both going by way of Rupert.

The wiring for the electric light is now being put up and in a short time the "juice" will be applied.

Tom McLeod was visiting the editor Sunday.

Sam Handenschild intends to take a long vacation soon.

Joe Bellway came in from Kalum Lake on Tuesday, D. R. Shaw arriving from Douglas Creek on the same day.

Archie McCormick is spending some days in town.

Fairday saw the town healthily alive. From far away Kitimat, from Woodcock and Cedarvale, from Usk, Pacific and Kitwanga, from Remo and Salvus and from Kalum Lake and Douglas Creek there were visitors and the place wore an air of unwonted bustle.

The letting of the contract for the bridge has sharpened anticipations a bit. Those who want to winter right here anticipate that what with several pole and tie contracts, with sawmills running to capacity and with the work on the bridge Terrace should have quite a payroll this winter.

Fred Dubord wishes it to be known that, contrary to the report in our paper last week, J. McDougall has never had any association with the Tourist Club.

Will Halt states that the story about a big iron discovery in Kitimat, which was spread about a few months ago, is quite without foundation. Will was stated to have found enormous deposits, but he says it's not so—and he ought to know.

Dr. G. Hanson has been saying some good things about mineral prospects in Kitsumkalum Valley. Looks as though money would release some fine stuff there.

Geo. Clothier, resident mining engineer, has returned to Rupert after visiting several prospects up Kalum way.

Chief Minty was in town last week in connection with the McDougall case.

Major Taylor, resident public works engineer, has been here looking over the various jobs.

Matt Allard hiked down from Kalum Lake Sunday and reported having seen a big flock of goats near the top of Lindo mountain.

Mr. and Mrs. McCutcheon, and daughter, from Rupert, have been holidaying at Lakelse Lake.

Several doctors have been here this week, giving the place the once-over.

One of the most interesting visitors Terrace has had came all the way from Copenhagen. He was here by arrangement between his own government and that of Canada to spy out the land in the interests of Danish emigration.

P. W. Ankattell-Jones, one of the judges at the fair, gave an extremely interesting object lesson at the fair on packing apples. He showed, too, that he is thoroughly acquainted with the job.

C. W. Homer, the district assessor, has been visiting Terrace this week.

Ben Self came up from Rupert Monday and registered at the Tourist Hotel.

James Richmond spent the week-end at New Hazelton.

Prizewinners at Terrace Fall Fair

Spring Calf.—1, W. West; 2, K. Olson. Yearling.—1, D. A. McKinnon; 2, J. K. Gordon.

Milch cow.—1, W. West; 2, H. L. Frank.

Purebred cow.—1, W. West; 2, H. L. Frank.

White Leghorns.—1, Mrs. Braun; 2, K. Olson.

Goose and Gander.—K. Olson.

Sheaf Wheat.—F. W. Bohler.

Sheaf Oats.—F. W. Bohler.

Alsike Clover.—F. W. Bohler.

Red Clover.—L. H. Kenney.

Timothy.—F. W. Bohler.

Cabbage.—A. Creelman; Mrs. Gill.

Carrots.—I. Frank; F. Frank.

Table Beets.—F. W. Bohler; T. J. Kirkpatrick.

Have You Paid Your Subscription up to Date?

How much should be spent in newspaper advertising?

A questionnaire recently sent out to successful merchants of the east and middle west States by a prominent trade journal revealed that the following percentages were considered the minimum upon which advertising appropriation should be based:

General stores	- 4 1-2 per cent
Women's special	6 1-2 per cent
Shoe stores	- 5 per cent
Millinery stores	- 5 per cent
Music stores	- 5 1-2 per cent
Furniture stores	6 1-2 per cent
Electrical stores	- 7 per cent
Jewelry stores	- 6 1-2 per cent
Men's clothing	- 6 per cent

It is the opinion of these merchants that any business man whose appropriation falls below these percentages on his turnover is overlooking

AN INVESTMENT THAT INVARIABLY GIVES HIGHLY PROFITABLE RETURNS WHEN INTELLIGENTLY HANDLED

BRITISH COLUMBIA

THE MINERAL PROVINCE OF WESTERN CANADA

HAS PRODUCED MINERALS VALUED AS FOLLOWS:-

Placer Gold	\$ 76,542,203
Lode Gold	109,647,661
Silver	59,814,266
Lead	51,810,891
Copper	170,723,242
Zinc	24,625,853
Coal and Coke	238,289,565
Building Stone, Brick, Cement	36,605,942
Miscellaneous Minerals	1,358,839

Making its mineral production to the end of 1922 show AN AGGREGATE VALUE OF \$769,418,462

The striking progress of the mining industry in this province, is strikingly illustrated in the following figures, which show the value of production for successive 5-year periods:

For all years to 1895, inclusive	\$ 94,547,241
For five years, 1896-1900	57,607,967
For five years, 1901-1905	96,507,968
For five years, 1906-1910	125,584,474
For five years, 1911-1915	142,072,603
For five years, 1916-1920	189,922,725
For the year 1921	28,066,641
For the year 1922	\$35,158,843

PRODUCTION DURING LAST TEN YEARS, \$339,280,940

Lode-mining has only been in progress about 33 years, and not 20 per cent. of the Province has been even prospected; 300,000 square miles of unexplored mineral bearing lands are open for prospecting.

The mining laws of this Province are more liberal and the fees lower than any other province in the Dominion, or any Colony in the British Empire.

Mineral locations are granted to discoverers for nominal fees. Absolute titles are obtained by developing such properties, security of which is guaranteed by crown grants.

Full information, together with mining reports and maps, may be obtained gratis by addressing

Relish.—Mrs. H. L. Frank; Mrs. T. H. Wentz.

Large Influx of Swiss Settlers Seen Next Year

Representing the Swiss Association for Colonization, Fritz Beck, was a passenger on the westbound train one day last week. He has been in Canada for some time with the object of locating a large number of his countrymen in this new country. In Switzerland the natural increase in the population is many thousands per year greater than the country can provide for, and today thousands are living from hand to mouth. There are now 800 Swiss in Canada as a first contingent. If they are successful in getting located and like the country the immigration of the thousands will begin next year. These 800 are all picked men and represent many branches of industry. A good many are expert dairymen and some of these have already been placed in charge of farms. Among them are woodsmen and general farmers. Mr. Beck found the northern interior of British Columbia the ideal place to settle several hundred families of Swiss farmers. He felt confident that they would all make good here and that many thousands of acres now considered unfit for agriculture would, in a few years, be producing crops. He saw in this country a great future for the dairy business and for breeding high class beef and dairy cattle to supply the other western provinces and even the northern part of the United States. From Switzerland thousands of head of breeding stock were being shipped abroad every year.

Mr. Beck and an associate were en route to Victoria to interview Hon. T. D. Pattullo and Premier Oliver in regard to bringing in a couple of hundred of these people as a starter. The visitors have a very excellent plan to place before the government and they hope to be successful in interesting the ministers of the crown. In the meantime anyone wanting dairymen, mixed farmers or woodsmen can secure the required number of men from the 800 now in western Canada.

Acreage blocks of the finest fruit and garden land in the north can be had. Prices from \$28 to \$40 an acre with long term payments. See adv. on another page.

Cucumbers.—Mrs. Bohler; Mrs. Wentz. Scott.
Plain fruit cake.—Mrs. J. H. Young; Mrs. J. M. Viger.
Layer cake, iced.—Mrs. Wentz; Mrs. E. T. Kenney.

HAZELTON NOTES

Mrs. Wm. Grant left on Tuesday morning for Smithers, where she took in the fair and visited with her daughter, Mrs. Norman Kilpatrick.

Mrs. J.C.K. Sealy and Mrs. Newick left Wednesday for the Smithers fair. They each took large exhibits of flowers, vegetables, fruit, etc.

Miss Chadborn, of New Westminster, arrived last Saturday to visit her sister, Mrs. (Rev.) V. Sansum.

Mrs. Wm. Gow entertained Friday evening last in honor of her guest, Mrs. McCutcheon. A feature of the evening was the minstrel orchestra from the Hazelton Hospital.

The New Hazelton Ladies' Aid Society has decided to hold their Annual Sale of Work and Social in the Church at New Hazelton on Nov. 23 (Friday). They will have a full line of men's socks, mitts and other useful things for ladies and children. Keep the date open. 11tf

E. Nelson returned last week after spending some months in southern B. C.

James Turnbull spent the week-end in town, the first time he had been home for several weeks.

Acreage blocks of the finest fruit and garden land in the north can be had. Prices from \$28 to \$40 an acre with long term payments. See adv. on another page.

Mr. and Mrs. R. S. Sargent and family motored up to Smithers on Wednesday for the fair.

The ladies of the Women's Hospital Auxiliary are holding a tea at the home of Mrs. Leverett on Tuesday, September 25th. Everybody is cordially invited. 1

Dick Gooding, of the government telegraph service at Graveyard Point, accidentally shot himself when engaged in cleaning a .22 rifle last Friday. The bullet entered his mouth and came out of his cheek. He was taken to Prince Rupert for treatment. Dick is very well known locally.

Dr. H. C. Wrinch, and son, Leonard, in company with W. S. Harris and J. D. Galloway spent a day or two on Nine-mile mountain this week.

Dr. George Hanson and party have arrived to commence their work of investigating arsenic deposits in this district for the geological survey. The work will occupy them for two weeks.

Mrs. A. Leverett and her mother, Mrs. Gatt, went up to Burns Lake to attend the wedding of Mrs. Leverett's brother-in-law and Miss Gladys Corliss.

The Kitselas Mountain Copper Co. started operations last Monday, extending their tunnel further into Kitselas mountain.—Usk.

He estimates that on Legate Creek there are twenty square miles of pulp wood which would pay to build a light railway to handle.

A Close Shave

An Indian and his family had a narrow escape from injury and perhaps worse on Monday, when approaching Hagwilget on the high level bridge. A number of cows at the western end scared the team the Indian was driving and the horses bolted, breaking the harness and dragging the democrat, shafts down, along the right of way. A government employee, who was working on the bridge at the time, had to make a quick jump for safety on the other side of the rail to escape damage.

On Mission Work

In a recent issue of the Vancouver Province appeared article on the combination mission work being carried on by Anglican, Presbyterian and Methodist Churches on the islands the coast, and includes a picture of Rev. R. S. Scott and describes his work among the Indians. Rev. Scott is well known in the district, having been stationed here several years ago with the Methodist Church. His headquarters are now at Yuc Quadra Island.

Thanksgiving Day has been officially set for Monday, November 12.
